THE TASK OF CONGRESS. It is the opinion of commercial and financial leaders all over the country that the first duty of the Congress in session is to enact laws that will relieve the situation and increase the resources of the government. The eyes of the nation are turned toward Congress. There is a general consensus of opinion among financiers that while there should be some modification of existing customs duties, no radical tariff legislation of any kind should now be attempted. All also agree that the deficit, caused by insufficient revenues, is the cause of the Administration's financial difficulties.

The New York bankers assert substantially that the first and commanding duty of Congress is to furnish the Government with sufficient revenue to meet its current obligations. Some of them admit, as every well informed citizen does, that the present curroby system is not beyond criti-If the stor Son-of the various forms of India.

November 1, 1895, \$333,456,236 in silver certificates, and as the act of July 14, 1890, declared it "to be the established policy of the Urited States to maintain the two metals at parity with each other," there was now a total of \$621,229,532 resting on the basis of the gold reserve of \$100,000,000. The Republican party will have the currency question to settle and can be depended upon to settle it in a manner that will give the people plenty of good safe money, gold, silver and paper. It is a business question which the business men's party will know how to handle when entire control of the government passes into the hands of the kepublicans. A party as badly divided as the Democracy can not deal boldly and frankly with such an intricate subject as the nation's finances. No Democratic solution can command votes enough to become success and a finality.

With Thomas B. Reed as Speake the Republican House will make no mistakes that the Democrats can use for campaign purposes next fall.

In Cleveland, Ohio, on Thanksgiving Day, the Christian Endeavor Society had a special meeting to offer prayers for the conversion of Col. Robert G. Ingersoll. At all of the city churches where services were held, the subject of prayer was re membered. The Christian Endeavorers were joined largely by Epworth Leaguers and Christians generally in the effort to secure Ingersoll's consowels. version, and many an old "mother in week after ta sury were armed with Israel" pleaded with tears for the skeptic, as if he were her own son. hanfiothing of the ability of It is better to save the heathen at wernment to maintain the home than the pagan in China or

The New York Morning Advertermine to tiser outlines the policy of the Reit them publican party in the following ted language: "The country back to Republicanism hty rush of a great ino parallel. The Springfield Republican of the 1st inst. said: "The initial number of the Taney County REPUBLICAN of a suit. Respectfully, published at Forsyth, Mo., reached us on time. It is a bright newsy paper, and editorially will do much to strengthen the Republican party in that part of Missouri."

Our representative in Congress. Norman A. Mozely, came very near gaining the distinction of being the youngest member of the House. Mr. Mozely was 28 years old when elected, but George N. Southwick, of Albany, New York, was only 25. New York therefore wins the bonor.

No man can can afford to think that he is wiser than his party. If he cannot convert the majority to his townships and any information dethem till they come around to his opinion. He will effect more that way than if he goes into opposition and tries to lead a forlorn hope.

Financial authorities say toat there will be no great appreciation in the value of Santa Fe securities until final arrangements have been made concerning the future of the St. Louis and San Francisco. They consider the Frisco essential to the Santa Fe system. It is therefore not at all probable that the Chadwick Branch will be sold to any Springfield railway company, or to any other corpo-
